MAY 1971

MEMORANDUM FOR: Director of Training ✓
Director of Personnel

SUBJECT : Management Advisory Group Recommendations

Hugh and Harry:

1. You will recall that the two MAG papers which Colonel White sent us on the CT Program and the probationary period, respectively, were discussed and we agreed that, at least insofar as the CT paper was concerned, it would be better responded to by the meeting which you have now had with the Management Advisory Group. I feel that we are left with some untied strings and would like to have a written recap of the session. Is there further action yet to be taken? Would you draw from your discussion with the MAG any ideas for change or refinement in the CTP? I'm sure that Colonel White will be expecting some sort of at least interim conclusions to this exercise.

2. I believe that our response to the probationary issue was given to the MAG and it may be that they also saw our other comments. Was there any indication in your session with them that they had seen our response and was there any discussion of the probationary period matter?
